April 2025

**Dear Partners in the Ministry,**

Throughout April, we were blessed to be in several wonderful churches across Tennessee, Ohio, New York, and Montreal, Canada. And we're happy to share that **we have reached full financial support** through the Lord's faithfulness! What a joy to see how God has provided through His churches. In one of the churches we visited, meeting several young men preparing for full-time ministry was a special blessing. Their zeal and willingness to serve the Lord encouraged us.

While in New York, we participated in a couple of missions conferences, and we were also able to visit and say goodbye to family and friends. As the days count down, the reality of leaving sets in more and more. We're excited to be just under 60 days away from moving to Zambia. However, we ask that you **please pray for grace as we say our goodbyes**, especially knowing that we may not see some loved ones again on this side of eternity.

We also had the chance to take our girls to Niagara Falls, and while there, we were able to distribute gospel tracts to people from many different nations. It's always a joy to share the gospel and watch Faith and Isabella get involved in distributing the good news of salvation.

This month, we also took care of some important paperwork. Willow's passport arrived, and we submitted our documents for Zambian ministerial work permits. The visa portal in Zambia had been down for several weeks. However, it is now back online, and Lord willing, we'll receive our approvals soon. **Please pray that those applications will be processed without delay.**

We have one more missions conference next week and a couple of Mother's Day weekend meetings. Then, we'll head back to Florida to finish preparing for the move and spend time with our home church.

Thank you for continuing to pray for us during this final stretch before we leave for the field. Your support and encouragement are a constant reminder of God's faithfulness.

**Sincerely,**

*Isaiah, Alicen, Faith, Isabella, and Willow Carr*
